

THREE-DAY SCHOOL ITINERARY

Day One:

- Meet the Instructor to discuss the current state of your golf game
- Player equipment check to make sure you have the proper equipment for your swing
- Filming of your swing to identify the strengths and weaknesses
- Computer analysis of your swing using state of the art V1 analysis technology which makes it easy to spot where improvements can be made
- Once faults have been identified, the Instructor will work with you and prescribe corrective drills to help you develop the right feel

Day Two:

- ½ hour on each aspect of the short game (chipping, pitching)
- Each aspect begins with the Instructor giving a detailed presentation of how to effectively hit the shot
- As the lesson progresses and your swing improves, the Instructor will re-film your swing to help highlight your progress by showing your “before” and “after” swings on the V1 analysis software

Day Three:

- ½ hour on each aspect of the short game (putting, bunker play)
- Each aspect begins with the Instructor giving a detailed presentation of how to effectively hit the shot
- Instructor will take the fundamentals learned with an iron and apply them to your driver and fairway woods
- Final CD/DVD with a customized improvement plan is provided for the student to take home
